

This year's theme was all about "Stars"

After registration, Thursday night was "A Night Under the Stars" cocktail reception & oceanfront buffet.

Breakfast on Friday morning was followed by our annual business meeting.

A COM Check Presentation by William "Bill" Beals of Therm-all allowed us to learn more about our industry adopting energy codes in order to receive government funding. He gave us greater detail on what the ASHRAE/IECC energy codes really mean. We learned that individual states & counties can exceed the federal minimum requirement for energy code, so we must be attentive to the particular area in which a building is to be located in order to be compliant.

A presentation by Tim Treon of FMI on Coaching, Performance and Results taught us that by increasing employee efficiency through celebrating successes & giving positive feedback to promote a better work environment, the result would be greater productivity & increased profit for the company.

After an afternoon of fun in the sun, Friday night's wine reception was followed by private vendor events.

Saturday morning our golfers played the Robert Cupp Course at Palmetto Hall Golf Club.

Thank you to all our participants!

Saturday night concluded with "A Tribute to the Stars" recognizing our past Presidents as well as cocktails, dinner, awards and dancing to the sounds of "The Headliners"
